

Regional School District 07 Final Adequate Yearly Progress Status, 2010-11 School Year: Achieved

Based on 2011 Connecticut Mastery Test (CMT) results and the 2011 Connecticut Academic Performance Test (CAPT)

The tables below shows this district's performance on the AYP indicators. A district fails AYP if there is a "No" under the AYP Target Met column for BOTH the CMT and the CAPT. Only students who were enrolled in this district the full academic year were included in these calculations.

Northwestern Regional High School

The table below shows this school's performance on the AYP indicators. A "No" under the AYP Target Met column indicates an area in which the AYP criteria was not met. Only students who were enrolled in this school for the full academic year were included in these calculations.

Additional Academic Indicator: Graduation Rate (85 % or annual improvement needed)	AYP Target Met?	Yes
--	-----------------	-----

Legend:

- : Fewer than 11 students tested for Students Overall; Fewer than 40 students tested for subgroups

* It is possible for a subgroup to be of sufficient size (40 or greater) for the calculation of the participation rate, but not of sufficient size (fewer than 40) for the calculation of the percent at or above proficient. This is due to the omission of absent students from the calculation of the percent at or above proficient. If a school does not have the required 95 percent participation with 40 or more students, it will not have made AYP, regardless of the subgroup size for the percent at or above proficient calculation.

** For any school or subgroup that did not meet the 95 percent participation rate criterion, a two- and three-year average participation rate using 2011, 2010, and 2009 CAPT is calculated. If the two-year or three-year average was greater than the current participation rate, it was used for the AYP analysis.
